

LA VALLÉE

TIMEPIECES

Handcrafted unique pieces of jewelry, with precious gemstones, have often been associated to the celebration of very personal and memorable moments.

But there is another very special and creative way to recall an unforgettable moment, every day.

La Vallée, Italian horology family business based in the Lake Como region, has created an exclusive series of timepieces called ATTIMO. Every ATTIMO replays the winning shot every hour, reminding the owner of their very own unforgettable moments.

LA VALLÉE

TIMEPIECES

'Attimo' is a word that exists only in Italian: it means a very short moment in time, very difficult to grasp. La Vallée named their timepiece ATTIMO to refer to that short unforgettable moment in which something special happens.

ATTIMO connects a very personal emotion to a timepiece that replays every hour the gesture of its owner.

LA VALLÉE

TIMEPIECES

UNPRECEDENTED LEVEL OF PERSONALIZATION

The upper scene can be completely custom-made to the image and likeness of the owner sealing the unforgettable moment ("ATTIMO" in Italian) forever.

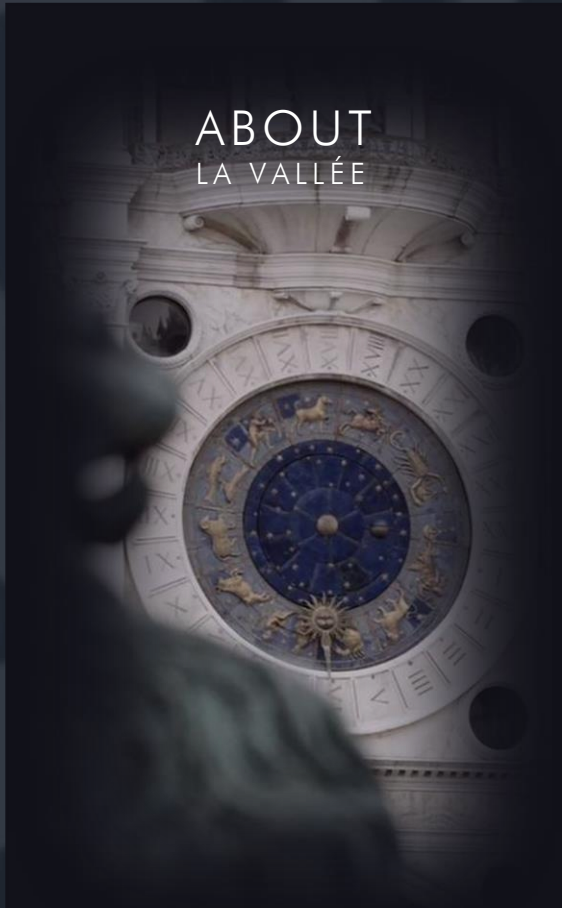

Thanks to its expertise in modelling and crafting metals and jewellery, La Vallée can reproduce the ATTIMO's player in its owner's image, including their body type, clothing right down to their favourite shoes, golf bags and clubs.
